

# FIAT SERVICE LETTER

SUBJECT:            RUNNING CHANGE - WATER PUMP PULLEY KIT NO. 4752

VEHICLES:        1979 STRADA AND X1/9 MODELS (49 STATE VERSION)

**PARTS**

**INFORMATION**

A running change has been made to water pump pulley Kit No. 4752. See Service Letter 501-20, dated October 9, 1979. The change to the kit involves:

- the addition of a new timing mark indicator bracket. This eliminates the need to modify the existing bracket as specified in the installation instructions.
- A Dayco Belt, No. 15325 has replaced the previously supplied Gates 7325 belt.

Either, a 4752 Kit with the above modifications, or one produced prior to these modifications is valid and should be utilized to modify the drive belt arrangement on the applicable models.
